

SmartScore® X

PRECISION MUSIC SCANNING

*X*traordinarily accurate
*X*ceptionally powerful

Editions starting at **\$99** Special pricing for schools & churches

**Scan & Play.
Transpose & Print.
Create scores
from scratch
or from MIDI files.**

There is no faster way to get sheet music into your computer !

SmartScore X recognizes more musical symbols more accurately and more quickly than any other scanning software. SmartScore is a complete music software solution, not half of one. Designed from the beginning to be easy-to-use, even computer novices can dive right in. Download a free trial version from musitek.com or ask us for a CD.

**Give SA / TB scores
their true voice !**

Isolate contrapuntal voices within staff lines. Extract parts or voices to separate documents. Assign distinct instrument sounds to parts and/or voices. Play back and burn solo or ensemble sections to audio CDs. Transpose, center and print out parts... all within seconds.

**Scanning is just the
beginning...**

Unlike other music scanning software, SmartScore X is also a powerful, stand-alone score writer with easy-to-use interface and toolsets. Most common functions can be done with a single button !

Save \$100.

Schools, churches and non-profits all qualify for special pricing. Call us or visit musitek.com for details.
